

“For mid size business such as a hotel, gaining control of your lighting system is equivalent to increasing the occupancy of the hotel.”

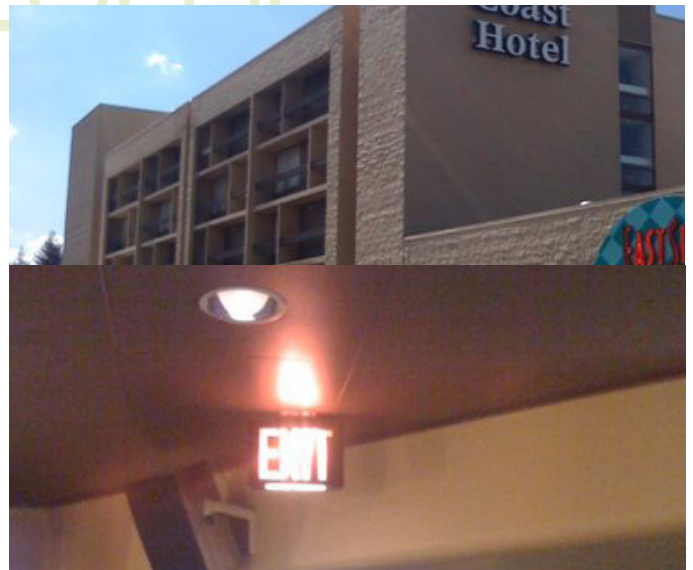

Mid Size Plan: LumiGold

This is our upgraded package which is ideal for Mid Size businesses, hotels, large warehouses and small hospitals with an average monthly power bill of \$10,000.00 to \$30,000.00. This package is an upgraded version of our LumiSave and includes more features. If your business, facility or building has an outdated lighting system that has not been replaced in years, this is the plan for you. We will guarantee amazing KW reduction, lowered CO2 emissions and decreased maintenance costs with our 120 day money back guarantee. If you don't see promised reductions on your first power bill after the suggested upgrades, we will gladly refund your money.

LumiGold Features include:

- Facility-wide lighting audit
- Facility-wide inspection of batteries and emergency egress plan
- Comprehensive multiphase complete lighting system upgrade recommendations.
- Up to six (6) one hour consultations via phone or chat.
- Up to six (6) changes or edits to the lighting schedule
- Free sample LED product for one application of your choice
- We work with the utility company on your rebate and do the paperwork for you
- We help ensure you receive any tax incentives
- LimeLumi emblem for your building
- and more ...

LumiGold ensures that your building(s) will be operating at peak efficiency and code compliance for years to come. LimeLumi is dedicated to making sure the implementation of your lighting solution is as simple and easy as possible. We coordinate with local installers and your management personnel to ensure every possible precaution is taken to accommodate residents, patients, students or tenants. Most of our solutions are as quick

Older buildings simply weren't built to today's efficiency standards
