

“For small business, lighting can account for the majority of your power bill and also an undue strain on your staff changing bulbs”.

## Small Business Plan: LumiSave

Our lumisave plan is specifically designed for small to medium businesses and includes everything needed to get your costs under control and go green. We work directly with small business owners to provide expert solutions to oft-overlooked products Customers have seen up to a 90% reduction in energy consumption and generally a payback of under 1 year.

**Own a chain of small businesses?** LumiSave may be right for you because if most of your chain is the same buildout then you may have solved all your problems with one package. We can review the main property, and any variations- allowing you to make changes across the board.

**LumiSave™** is the most comprehensive lighting solution for small to medium size business on the market today. We can provide the entire solution remotely, or for an additional fee come to your location personally to provide home town service. Using modern technology and our proprietary system we can actually give customized lighting solutions for most situations from our main offices. With LumiSave we collect your site survey information then have our engineering team analyzes the pictures and data. We use the information you provide to give you turnkey solutions to your lighting and energy needs and provide it to you with 5 business days. No waiting, no stress just intelligent answers.
