The LumiLast LED Retrofit, using Firefly Technology, is the only approved retrofit for Seattle city light. Unlike other retrofit kits on the market this one is American made, uses new generation LED and is actually 5 x brighter than traditional signs. Installation is quick and easy. Stop changing the burnt out bulbs in the signs and solve your problem for good. Switch today and save for 10 Years at an amazing 1 Watt!!

*LimeLumi and our installers make sure to recycle all the lighting systems we remove.
