The T5 High Bay replaces a HID and saves you 50% of energy, with a 5 year warranty. This product will pay for itself in energy savings alone within 2 years, and helps keep bulb and maintenance costs low. This gives your business 3 or more years of cost free profitable lighting! Contact your rep to find out how this solution can easily be integrated into your facility.

LimeLumi and our installers make sure to recycle all the lighting systems we remove.
